

CAPABILITIES STATEMENT

HIPAA Vault is the low-cost leader of HIPAA compliant cloud & managed security services, offering an array of compliant, cloud-based solutions. Our business is marked by the following differentiators:

- World-Class, 24/7/365 IT Services; less than 15 minute response times
- Managed Security Service Providers
- SMEs in HIPAA Public, Private, & Hybrid Cloud
- One-Stop Shop for Healthcare & HIPAA Solutions
- Cybersecurity Scanning, Penetration Testing
- Encrypted Email & FTP Servers

Corporate Data

Founded in 1997, Etica, Inc. d/b/a HIPAA Vault is an SBA 8(a) certified, HUBZone awarded and minority-owned small business, located in San Marcos, CA. Focusing on HIPAA Compliant Cloud and Managed Security Services, we ensure your system environments are configured optimally to mitigate the risk of a data breach or unauthorized access. HIPAA Vault also has the skill & experience in setting up DRaaS (Disaster recovery as a service)

Past Performance

- Beginning in 2013, HIPAA Vault provided a federal, enterprise-level, secure hosting service (through SI, Northrop Grumman) for the State of Wyoming. HIPAA Vault purchased, configured, & deployed the equipment to our datacenter, achieving a flexible & scalable architecture with multiple layers of external & internal security for 24/7/365 monitoring.
- Since that time, HIPAA Vault has also provided secure hosting for Deloitte, The Cerebral Palsy Association of New York, Streamloan, ConstantMD, PatientlySpeaking, and scores of other companies.
